Profile

Passionate and detail-oriented Frontend Developer with a strong track record of building well-structured, responsive web applications. Proficient in modern web technologies and UI design principles, with a focus on delivering accessible and high-performance websites. Skilled in troubleshooting, collaborating with teams, and maintaining clean, efficient codebases. Strong foundation in HTML5, CSS, SASS, JavaScript (ES5+), React.js.

Skills

Programming Languages & Frameworks: HTML, CSS, JavaScript (ES6+), React.js, SASS.

Testing & Debugging: Chrome DevTools, Console Debugging, Cross-Browser Testing

Version Control & Collaboration: Git, GitHub.

UI/UX & Design Tools: Figma.

Professional Experience

Software Developer Intern – NotchHR (ATB TECH), July 2024 – November 2024

- Designed and developed responsive web applications with seamless UX
- Collaborated with back-end teams and designers on UI components
- Debugged cross-browser issues and documented changes
- Used Git for version control and code management

Front End Developer – Ticket and Attendee Manager (Multinational Naija Event Hub), Dec 2024 – Present

- Built a responsive ticket and attendee management system
- Created reusable UI with HTML, SASS, and JavaScript
- Worked closely with the client for design alignment
- Maintained scalable code with Git and DevTools testing

Projects

Pizza Pro | HTML, CSS, JavaScript

- Developed an interactive and visually engaging landing page using HTML, CSS, and JavaScript.
- Ensured cross-browser compatibility and responsive design across various screen sizes and devices.

Language Academy | React.js, SASS

- Developed an interactive landing page using React.js, JavaScript and SASS.
- Implemented UI from Figma and tested cross-browser compatibility.

Blog Haven | React.js

- Created a blogging platform with API integration
- Focused on performance, responsiveness, and clean UI
